GOAL FOR THE MONTH

The Simple System That Changes Everything

Most habit trackers fail because they are complicated. This one is not. One page. One grid. One check per day.

1

Write in your 10 habits

Use the pre-printed habits or write your own. Pick habits you actually want to build. Start with 3-5 if 10 feels like too much.

2

Check the box each day

At the end of each day, mark what happened. Use checkmark for done, X for missed, tilde for partial, dot for intentional rest.

3

Do your weekly reflection

Every 7 days, answer the 4 questions on your Weekly Reflection page. This is where real growth happens.

4

Calculate your monthly win rate

Count your checkmarks and divide by 300 total possible. 80 percent plus is excellent. Below 60 percent, drop 2 habits and go again.
